### **DETAILED ACTION**

This Office Action is in response to the Applicants' amendment filed April 13, 2004.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2 and 7 recite the limitation "said isolation region" in lines 11 and 12-13, respectively. There is insufficient antecedent basis for this limitation in the claim.

#### ***Allowable Subject Matter***

Claims 1 and 9-11 are allowed.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 1, 2, 7 and 9-11 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following patents are cited to further show the state of the art with respect to integrated circuit structures having isolation and buried regions:

De Jong et al. (5,006,476)                      Hsu (5,089,429)

Jang et al. (US 2001/0008294 A1)              Kim (5,726,476)

Nishigoori et al. (5,376,816).
